

**RONKAR**  
ELECTRIC

**RONKAR**  
ELECTRIC

"Profile"

Founded in 2014, the company has earned distinction and recognition from all those working in the field, ranking first in its domain. Since its inception, it has specialized in the manufacture and installation of electrical bords for homes, residential complexes, hospitals, laboratories, and factories. It provides engineering design services for bords, following a thorough study before manufacturing begins. This study takes into account the most appropriate bord size for the designated location and the type of materials used in the project, in consultation with the project owner, while aiming to achieve the most appropriate cost, the highest quality, and the shortest completion time.

At Ronkar Electric, we are a trusted provider of high-quality electrical solutions, specializing in the design, manufacturing, and installation of electrical bords. Since our founding in 2014, we have remained committed to delivering precision, innovation, and reliability to our clients across a wide range of sectors, including residential, commercial, industrial, and healthcare.

## WHO WE ARE

---

At Ronkar Electric, we are a trusted provider of high-quality electrical solutions, specializing in the design, manufacturing, and installation of electric boards. Since our founding in 2014, we have been dedicated to delivering precision, innovation, and reliability to our clients across various sectors, including residential, commercial, industrial, and healthcare.

# STRATEGY

---

## INNOVATION

We are committed to remaining at the forefront of industry development by continually adopting advanced technologies and pioneering best practices. By fostering a culture of innovation, we ensure that our products and services not only meet current demands but also anticipate future needs—providing our customers with advanced, reliable, and effective solutions.

## QUALITY

Quality lies at the core of everything we do—from manufacturing to installation. We adhere to the highest industry standards, ensuring that our electrical boards are safe, durable, and precise. Our unwavering commitment to excellence guarantees that our customers receive the highest caliber of products and services.

## SUSTAINABILITY

We are committed to developing sustainable solutions that positively impact the environment. Our emphasis on energy efficiency and environmentally responsible practices drives us to design and implement systems that minimize waste, conserve resources, and contribute to a greener, more sustainable future for all.

## MISSION

Our mission—guided by a clear strategic vision—is to provide reliable, high-performance electrical solutions. We are committed to excellence and to the continuous improvement of our products and services, ensuring they consistently meet evolving industry demands and client expectations.

# HEALTH AND SAFETY

---

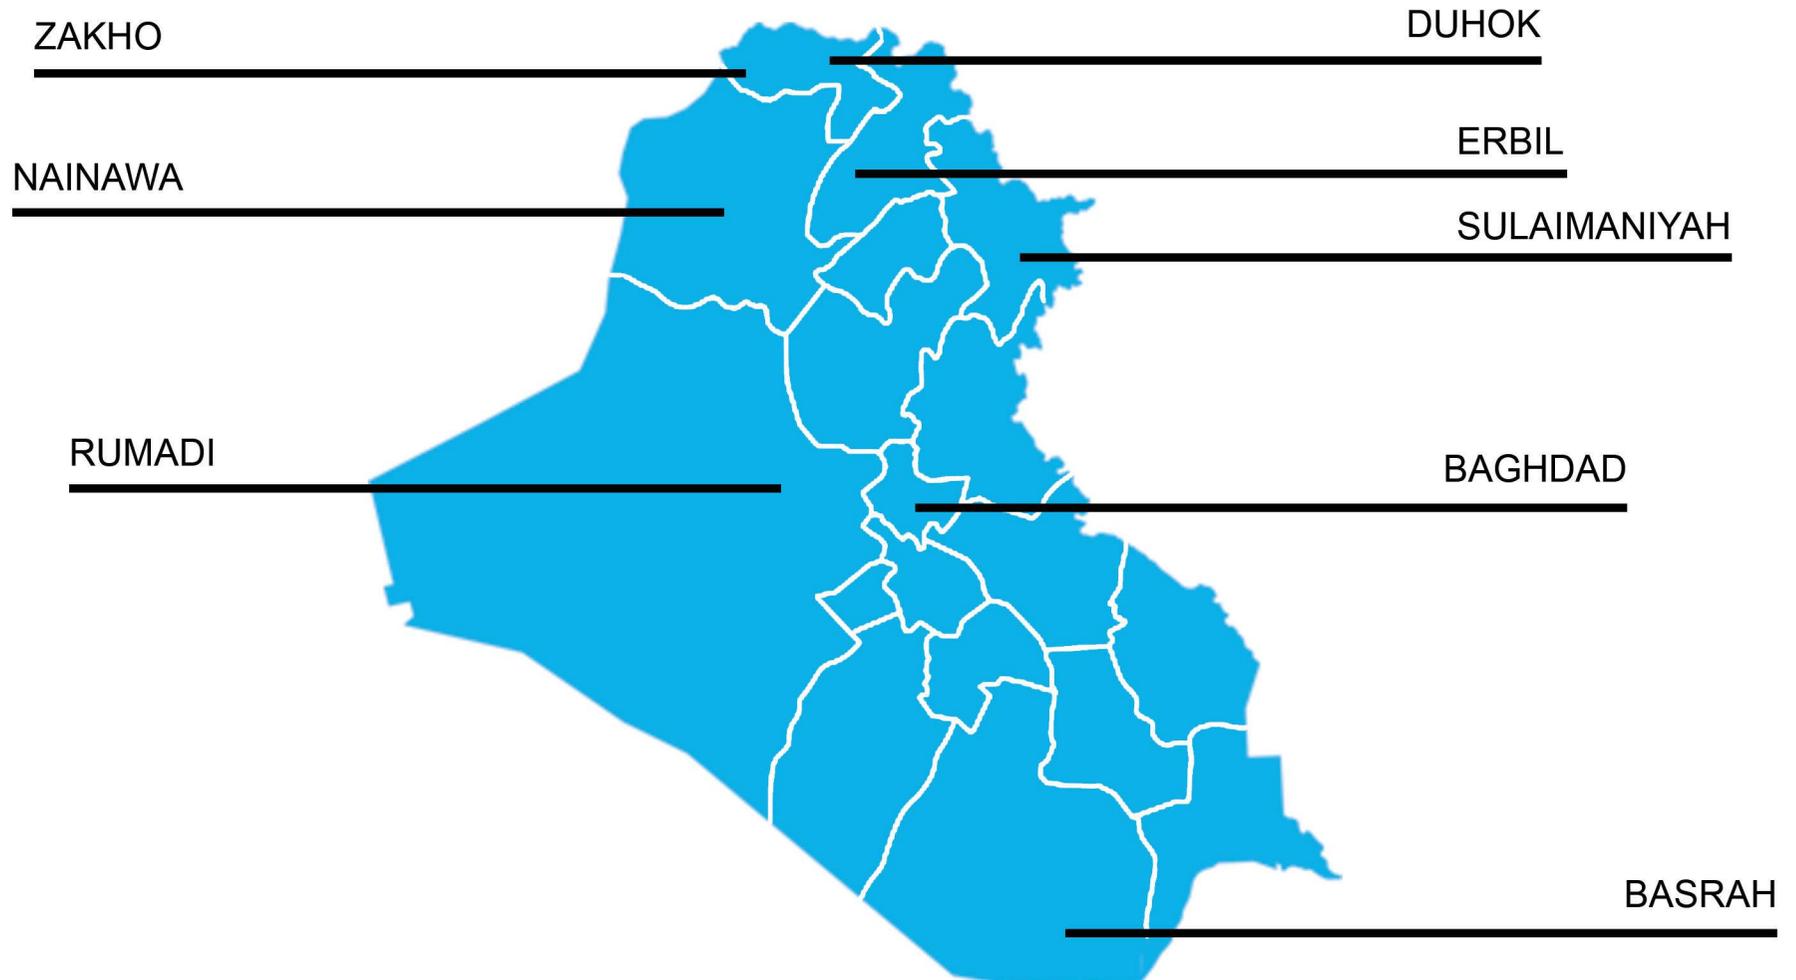

At Ronkar Electric, health and safety are our foremost priorities. We are dedicated to upholding the highest safety standards across all aspects of our operations from manufacturing to installation. Our team is thoroughly trained to adhere to rigorous safety protocols, ensuring that our products and services are not only effective but also safe for our customers, employees, and the communities we serve.

# PLACES OF WORK

---

At Ronkar Electric, we take pride in offering our specialized electrical solutions throughout the Kurdistan Region and Iraq. Our expert services ensure that every project whether residential, commercial, or industrial receives high quality electrical installations, carefully tailored to meet the unique requirements of each location.

# OUR BRANDS

---

At Ronkar Electric, we specialize in the manufacturing and installation of high-quality electrical bords, meticulously designed to meet the diverse requirements of a wide range of applications. Our bords are precisely engineered and constructed using premium materials sourced from trusted brands, ensuring safety, durability, and operational efficiency.

# OUR CLIENTS

---

At Ronkar Electric, our clients are at the heart of everything we do. We are proud to serve a diverse range of customers, including homeowners, residential complexes, hospitals, laboratories, factories, and businesses across various sectors. Our commitment to delivering high-quality, reliable electrical solutions has earned us the trust of clients throughout the Kurdistan Region and Iraq.

# FIELD OF WORK

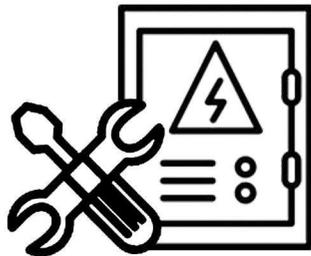

---

**Manufacturing and Installation  
of Electrical Panels**

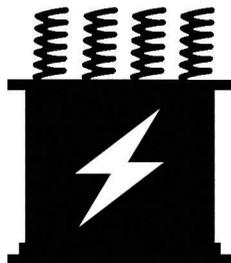

**Extending Cables of All Sizes**

**Repairing Electrical Panels**

**Selling All Industrial Materials  
and Supplies**

**Establishing an Electrical  
System for Factories and  
Buildings**

# STEPS OF WORK

---

- | Discuss all the work details required for the project with the specialists.
- | Helping professionals by giving them multiple ideas and options about the work required.
- | Submit an engineering drawing before starting work.
- | Turning the idea into reality.
- | Change and add new paragraphs as requested by the project owner or as required by the work.

# OUR SERVICES

---

- | Manufacturing and installation of electrical boards.
- | Providing a wide range of services.
- | Installing, changing and connecting cables.

- | Design and construction of primary substations.
- | Design and construct the cable tunnels.
- | Electrical installations.

## WHY CHOOSE US

---

- | We work for values, not just materialistic matters.
- | Punctuality.
- | Customer satisfaction.

- | We are the safest for your project.
- | We care about quality, not quantity.
- | Accuracy in work.

## MANUFACTURING AND INSTALLATION OF ELECTRICAL PANELS.

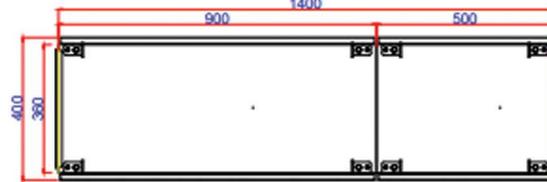

---

At Ronkar Electric, we specialize in the manufacturing and installation of high-quality electrical boards tailored to meet the specific needs of a wide range of applications. Our electrical boards are designed with precision and built using top-grade materials from trusted brands to ensure safety, durability, and efficiency.

# ELECTRICAL SUBSTATIONS

---

We provide design, construction and maintenance services of electrical substations according to engineering standards. We have an expert team who provides technical support and guidance to ensure that our customers' needs are met with the highest levels of efficiency and safety.

We convert electrical voltage from high levels (such as 110kV or 220kV) to lower levels (such as 11kV or 400V) to safely distribute it to consumers.

# UNDERGROUND CABLING

---

We constructed electrical equipment and manufacturing Electrical Boards for many projects. Including small and large Facilities, Hospitals, Universities, Commercial and Residential Stores, and Government buildings...
